A Note about swings.

Being a swing does not mean that you are a “lesser” person, or you were the last person selected. They were selected based on perceived work ethic, ability to pick up choreography quickly, and the ability to vocally blend with all in the section. Swings do not perform only when another person is absent. Since there are several female and male swings, they will swing in and out during the each show. We stage the competition show with 36 singers. Whenever possible for local shows, we use all 40 singers. During the busy Christmas season we divide the group into two groups of 20 singers. If you have questions about swings, please see Mr. Manley. Don't assume and come up with the wrong information.
